

Innovation Drives Performance

www.innovance.com | 507.377.8910

Innovance is the holding company for a portfolio of five, 100% employee-owned manufacturing companies located in Minnesota and Wisconsin. Formed in 2004, the Innovance name comes from two defining characteristics of the organization – innovation and performance. Our 400+ Employee-Owners strive to make every customer interaction a great one.

We collaborate across the organization to grow our employee and customer share value, by focusing on delivering an outstanding customer experience. Our unique and varied mix of industrial manufacturing capabilities assures our customers we are committed to developing solutions that solve most customer challenges.

Global Footprint

The four Innovance OEM companies combined dealer and strategic alliance networks reach into vast areas around the world. Our equipment can be found hard at work in dozens of countries. In addition, our contract manufacturing company, Lou-Rich, has built a wide variety of parts whose products are used all over the globe.

Core Values

- Conduct business with integrity and respect.
- Embrace innovation, technology, and performance.
- Provide stimulating careers with a healthy work-life balance.
- Ensure a friendly, safe, and secure working environment.
- Enhance employee's knowledge, skills, and abilities.
- Be socially and environmentally responsible.

Mission Statement

To lead, nurture, and grow a team of industrial manufacturing companies committed to making our customers' products better.

Innovance Company Structure

At Innovance we provide many of the services every business needs to function and thrive. Shared among all Innovance companies, these services offer a cost-effective and highly engaged delivery of professional expertise. We do this so each of our business units can focus on building the best products for our customers.

Innovance shared services currently fall into six general categories.

Innovance R&D Group

In 2022, we established the Innovance R&D group in Minneapolis, MN, dedicated to driving advancements in the product lines of our OEM companies. This team is equipped with an array of capabilities and services, including 3D Printing, Automation & Programming, SolidWorks Simulation, and Vibration Analysis. Focused primarily on the research and development of new technologies and processes, the Innovance R&D group plays a crucial role in distinguishing us from competitors. Their work ensures continuous improvement, not only in the development of new products and services but also in the enhancement of our existing offerings.

Message from the President & CEO

Innovance and its over 400+ talented employee-owners combine innovation with performance to create value for our customers. Our shared ownership ensures a collaborative approach to finding the best solutions to overcome any business challenge. We listen to understand your needs then align our approaches to help meet your objectives. This principle drives our dedication to exceeding your expectations – making a real impact.

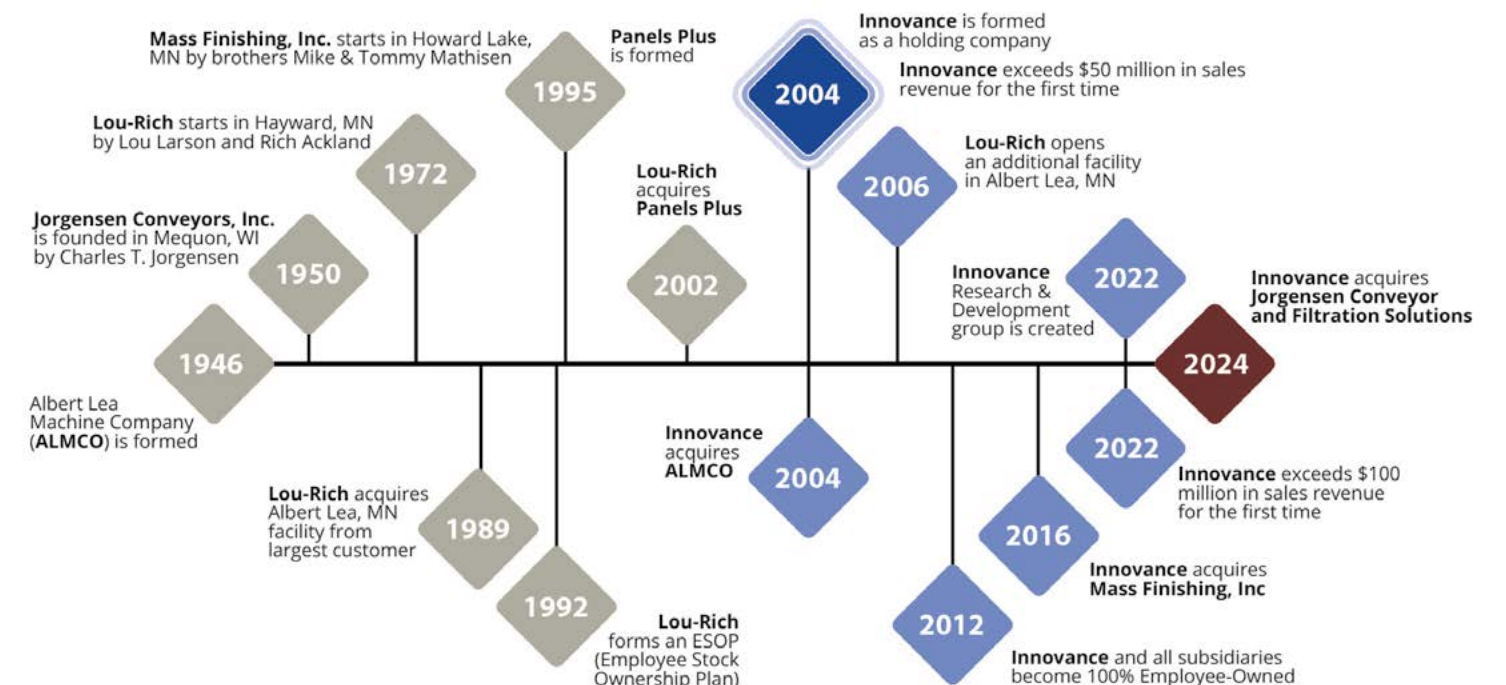

Our portfolio of industrial machine and contract manufacturing companies offers a wealth of options and proven paths for your business success. Challenge us to find innovative ways to create value and expect us to deliver on time and with exceptional quality.

On behalf of all the employee-owners of Innovance, thank you for your trust in our company and our capabilities that enable you to realize sustainable success. We will strive to earn your business every day.

Merritt Becker, Innovance President and CEO

Innovance Company History

While Innovance started in 2004, our brands have been operating as far back as 1946. Created as a way to expand and diversify the flagship business of Lou-Rich through acquisitions, Innovance continues to grow its portfolio of companies providing stability and security to all its Employee-Owners.

www.almco.com | 800.521.2740

ALMCO has been in business for over 75 years making and selling the best industrial finishing and washing systems in America. In addition to a robust line of standard products, ALMCO also designs and manufactures custom equipment to meet specific requirements. Leading companies in automotive, aerospace, medical, ammunition, construction, fasteners, and many other industries trust ALMCO for high-quality equipment, media, and ongoing service. ALMCO guarantees the same finish in production as produced in our lab when you follow the process formula and use ALMCO equipment and media.

What We Do

- Industrial Finishing Equipment
- Parts Washing & Drying Equipment
- Spindle Finishing Equipment
- Conveyor Systems
- Sediment Tanks
- Free Sample Processing
- Media & Compound
- Parts Replacement and Field Service

Vision Statement

To provide every customer with a completely satisfying experience.

Industries Served

Automotive/Transportation

Fabricated Metal Products
